A GREAT SPOT *for beauty*

To step inside Waramanga Beauty Spot is to enter a day spa environment with a wealth of treatments designed not only for your ultimate relaxation, but to achieve great results for your skin.

Owner Amy Lam and her team of three staff offer high levels of experience and quality customer service while delivering what can only be described as an extremely extensive menu of treatments that ranges from waxing and nails to Mesotherapy and Radio Frequency non-surgical face lifts.

According to Amy, Waramanga Beauty Spot specialises in non-surgical treatments. 'We also have more than 30 different facials on our menu. These are aimed at different skin types and we offer specific facials at different times of the year.'

The Mesotherapy facial rejuvenation and lift which is used to treat wrinkles, pigmentation and acne scarring is a 'no needle' treatment that is

able to penetrate through the cellular membrane, regenerating the cell and providing longer lasting results.

This is a relatively new treatment available at Waramanga Beauty Spot, as is the new radio frequency non-surgical face lift. RF treatment uses unipolar and bipolar radio frequency to heat subcutaneous dermal tissue which causes the contraction of the existing collagen fibres and in turn tightens the skin.

An exciting new treatment also now available at Waramanga Beauty Spot is skin needling. Skin needling treats acne scars, wrinkles and pigmentation, helping the skin produce more of its natural collagen.

'The focus here for us with our facials is not just to offer relaxation to our clients but to really enable them to see results and notice the difference in their skin when they leave the salon from when they entered,' Amy said.

Waramanga BeautySpot *Moment*

Waramanga Beauty Spot also offers waxing, nails, day spay packages, pedicures, eyebrow tinting, eyelash extensions and massage along with their non-surgical facelifts and facials. The skincare brands used in the salon are Thalgo, Sothys Paris and emerginC.

Clients will now also benefit from a newly refurbished salon with a nails room and a room for couples treatments allowing you to be pampered in a comfortable, modern environment.

And rest assured, with Amy and her team you will be in very experienced hands.

Amy has been working in beauty therapy since 1992 when she completed her training in Canberra before travelling overseas to undertake further training, eventually becoming qualified as a beauty therapy trainer in Asia. She took over the salon from her mother.

'The staff and I train consistently,' Amy said. 'I also constantly travel overseas to the US and Hong Kong for beauty expos and to make sure we are up to date on the latest technology and techniques.'

'I make sure all of my staff benefit from my experiences and are able to offer high levels of customer service.'

To celebrate the refurbishment of Waramanga Beauty Spot, Amy and her staff will be hosting an open day and official opening on Saturday 11 December from 1pm until 4pm.
