

## Non Surgical Treatments

Oxygen Therapy Rejuvenation, re-hydration & anti-wrinkle

### Benefits of Oxygen:

\*Oxygen doubles the rate of cellular reproduction: excellent for cellular renewal

\*Antibacterial: great treatment for active acne

\*Work at cellular level: great treatment for fresh scars

**Oxygen Therapy & Serum only:** promotion of cellular renewal, reduction of fine lines.

**Oxygen and serum facial:** deeply hydrating, reduction of fine lines and wrinkles, increase of elasticity, firms and plumps up skin

**Please don't have this treatment:** If you are allergic to preservatives or three days after having botox.

### Light Therapy -LED Phototherapy

From a skin care perspective **Light Emitting Diode** is the basis for photo-modulation, a scientific process that uses wavelengths in the visible light spectrum to send calibrated packets of light into the dermal layer, setting off a frenzy of cellular activity uses 4 colours from the visible light spectrum to promote balance & healing. Each colour has its own frequency & vibration. Through extensive research, we know that colour & light bring physical, mental, spiritual & emotional systems to balance.

*We recommend 1 treatment per week for an average of 8 treatments, once a month for maintained the results*

### Mesotherapy- Facial Rejuvenation & Lift

No Needle MesoTherapy are results driven treatments. In essence with Virtual Mesotherapy we are delivering active ingredients (such as vitamins, minerals, amino acids, enzymes & plant extracts) at cellular level (we're actually able to penetrate through the cellular membrane for the first time without use of needles), regenerating the cell and providing longer lasting tremendous results. Results of the treatments seen immediately.

**Condition to treat:** Wrinkles, Pigmentation, Removal of acne & scarring, Skin glowing

### RF Non Surgical Face Lift

Radio frequency is the latest technology to tackle face and body areas in need of rejuvenation. RF treatment uses unipolar and bipolar radio frequency modalities to heat subcutaneous dermal tissue using a RF waves. This causes the contraction of the existing collagen fibers, encourages fibroblast migration and promotes new collagen growth that helps to tighten and improve the outer architecture of the skin.

*We recommend 1 treatment per week for an average of 8- 10 treatments, once a month for maintained the results*

### Skin Needling

Skin Needling is an exciting new treatment which offers a safe and effective treatment for retaining youth, **acne scars, wrinkles** and **pigmentation**. Also known as CIT "collagen induction therapy" skin needling is effective because the underlying action of this treatment is stimulating a natural reaction in your skin to produce more of its own collagen. Simply put, it is laying down new foundations which helps improve the surface skin appearance giving it a natural youthful glow.
